STATEMENT : For the calculations: EFSA PRIMo Revision 3.1

Variability Factor (VF): , Large Portion (LP): g/person, Body Weight (BW): Kg, Unit Weight: In the absence of ARfD value, the ADI value, if available, is used for the calculations .

**NOTE 1 :** The Maximum Residue Limit, MRL (Maximum Residue Limit, MRL) is based on the European Pesticide Database ([https://food.ec.europa.eu/plants/pesticides/eu-pesticides-database\\_en](https://food.ec.europa.eu/plants/pesticides/eu-pesticides-database_en)), is used exclusively for informative purposes, has no legal value and is valid on the specific issue date of the certificate. The company declines all responsibility or liability whatsoever for errors or deficiencies in this database.

**NOTE 2 :** Except the compounds in the above table, all the other pesticides were either not detected or were detected in concentration below the reporting limit ("R.L.") of the method.

**NOTE 3 :** The total set of the active substances analyzed, along with their reporting limit (R.L) are referred in the following tables.

**NOTE 4 :** Method Uncertainty, at confidence level of 95%, is  $\pm 50\%$ .
